

Treasure Hunt

Welcome to the treasure hunt in Worriken.

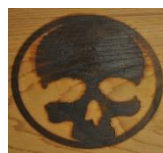

You are embarking on a grand adventure, filled with exercises, puzzles, and dangers. The goal: to find as many correct answers as possible to open the treasure chest.

To prepare yourself as well as possible, you need to know a few game rules:

1. You start at the starting point. This is marked with a red triangle on your map.
2. To prevent you from getting lost, we have marked the route. Be sure to follow these arrows:

3. Each exercise is indicated by a red circle on the map and a skull along the route. Each exercise is within a 4-5 meter radius of the skull! Search carefully. Cross off the exercise on your sheet when you're done...

4. Here is an example of the tiles you need to search for along the route.
(E.g., Exercise No. 5) **Look everywhere!!!**

5. Pay attention!!!

The pirate swords are hidden along the entire route. Every time you see one, mark it on the bottom of your sheet.

6. Your adventure ends when you have completed all the tasks.

Congratulations

Congratulations, you have survived your adventure unharmed.

But it's not over yet. There is one last riddle to solve.

With this clue, you will find the code to open the lock.
